Round table

Round table with base made of four elements in MDF Valchromat® (mass-coloured and transparent lacquered) attached to a structural steel cylinder, glossy black lacquered. Table top available in 3 sizes: cm Ø140-160-180. The table top consists of two elements: a central round top (always in extra-clear transparent glass) and an external crown available in:

- MDF Valchromat® matching the base, 16 mm th. (the crown is made by 4 sections)
- acid-etched glass 12 mm th. (only for cm Ø140-160)
- Carrara marble 15 mm th. (only for cm Ø140-160)

The table is available in the exclusive MB edition: light grey base with black edges, Ø160 acid-etched glass top.

Finishes notes

The central insert is always in extra-clear transparent glass (VTT).

Valchromat® is an MDF.HLS composed of mass-coloured wood fibres. The surface may show colour differences, both between the two sides of the same element and between different batches, due to the use of organic dyes and the natural colour variation of wood. Valchromat® complies with the european standard EN 622-5.

SATURNO

Mario Botta, 2025

With the SATURNO collection, Alias renews its collaboration with the architect from Ticino, which began in the 1980s. The table and coffee table system is characterised by an architectural design in an artful interplay of solids and voids that gives the product lightness and visual dynamism. The solid central base characterises the entire collection: four mass-coloured MDF elements are anchored to a shiny black powder-coated steel cylinder. The result is a sculptural structure, characteristic of Botta's architectural language, on which the table tops rest, available in various sizes and finishes.
