Bloom Floor Lamp

The Bloom Floor Light's superelliptical form is inspired by the gentle dynamic flow of paper lanterns. Its glorious lit effect is the result of transparency and light. Two contrasting materials – a finely perforated mesh core and frosted blown glass, combine to project a soft-focus texture onto the inside of the shade. At the same time, an unobstructed pool of light is projected downwards onto objects below. Bloom's distinct character is evident both in its on and off state, creating a versatile, valuable lamp.
