

TENON SIDE TABLE

BRAND PARTNER: NEW WORKS

A story of wood, a harmonious union – the Tenon Side Tables are versatile small tables that reflect the poetry of honest materials and precise compositions. Featuring a simple construction where grain patterns meet, and surfaces – broad and narrow – make the essence of the tables shift with every glance and angle. The tables are designed to accompany the Tenon Lounge Chair, placed in between chairs, in corners or as understated companions to other soft seating, creating cohesive and thoughtful arrangements.
