

BLOCK CHAIR

BRAND PARTNER: SIMON JAMES

NZ

The Block Chair by Simon James distills the collection's essential form into a stackable timber chair designed for refined, flexible use across interior environments. The squared frame is strengthened by distinctive block detailing at the junction between seat and legs, enhancing both its stability and visual identity. Subtly rounded outer leg corners bring softness to the otherwise linear structure, resulting in a chair that is robust, functional and quietly expressive.

Stacks 4 high.
