Gem – Table
Design by Sebastian Herkner

The **Gem** table boasts an interactive design. Its configuration is reminiscent of the stacked towers made of round pebbles on beaches. It is playful and mystical.

The table brings this playful aspect to any interior, where rounded shapes like pebbles or beads create bases for dining tables, side tables or coffee tables. The idea is to mix and match them to customize the table for your own home. By playing with sizes and colors, there is a great possibility and freedom in the design.
