

Soffio Wall

SALESHEET

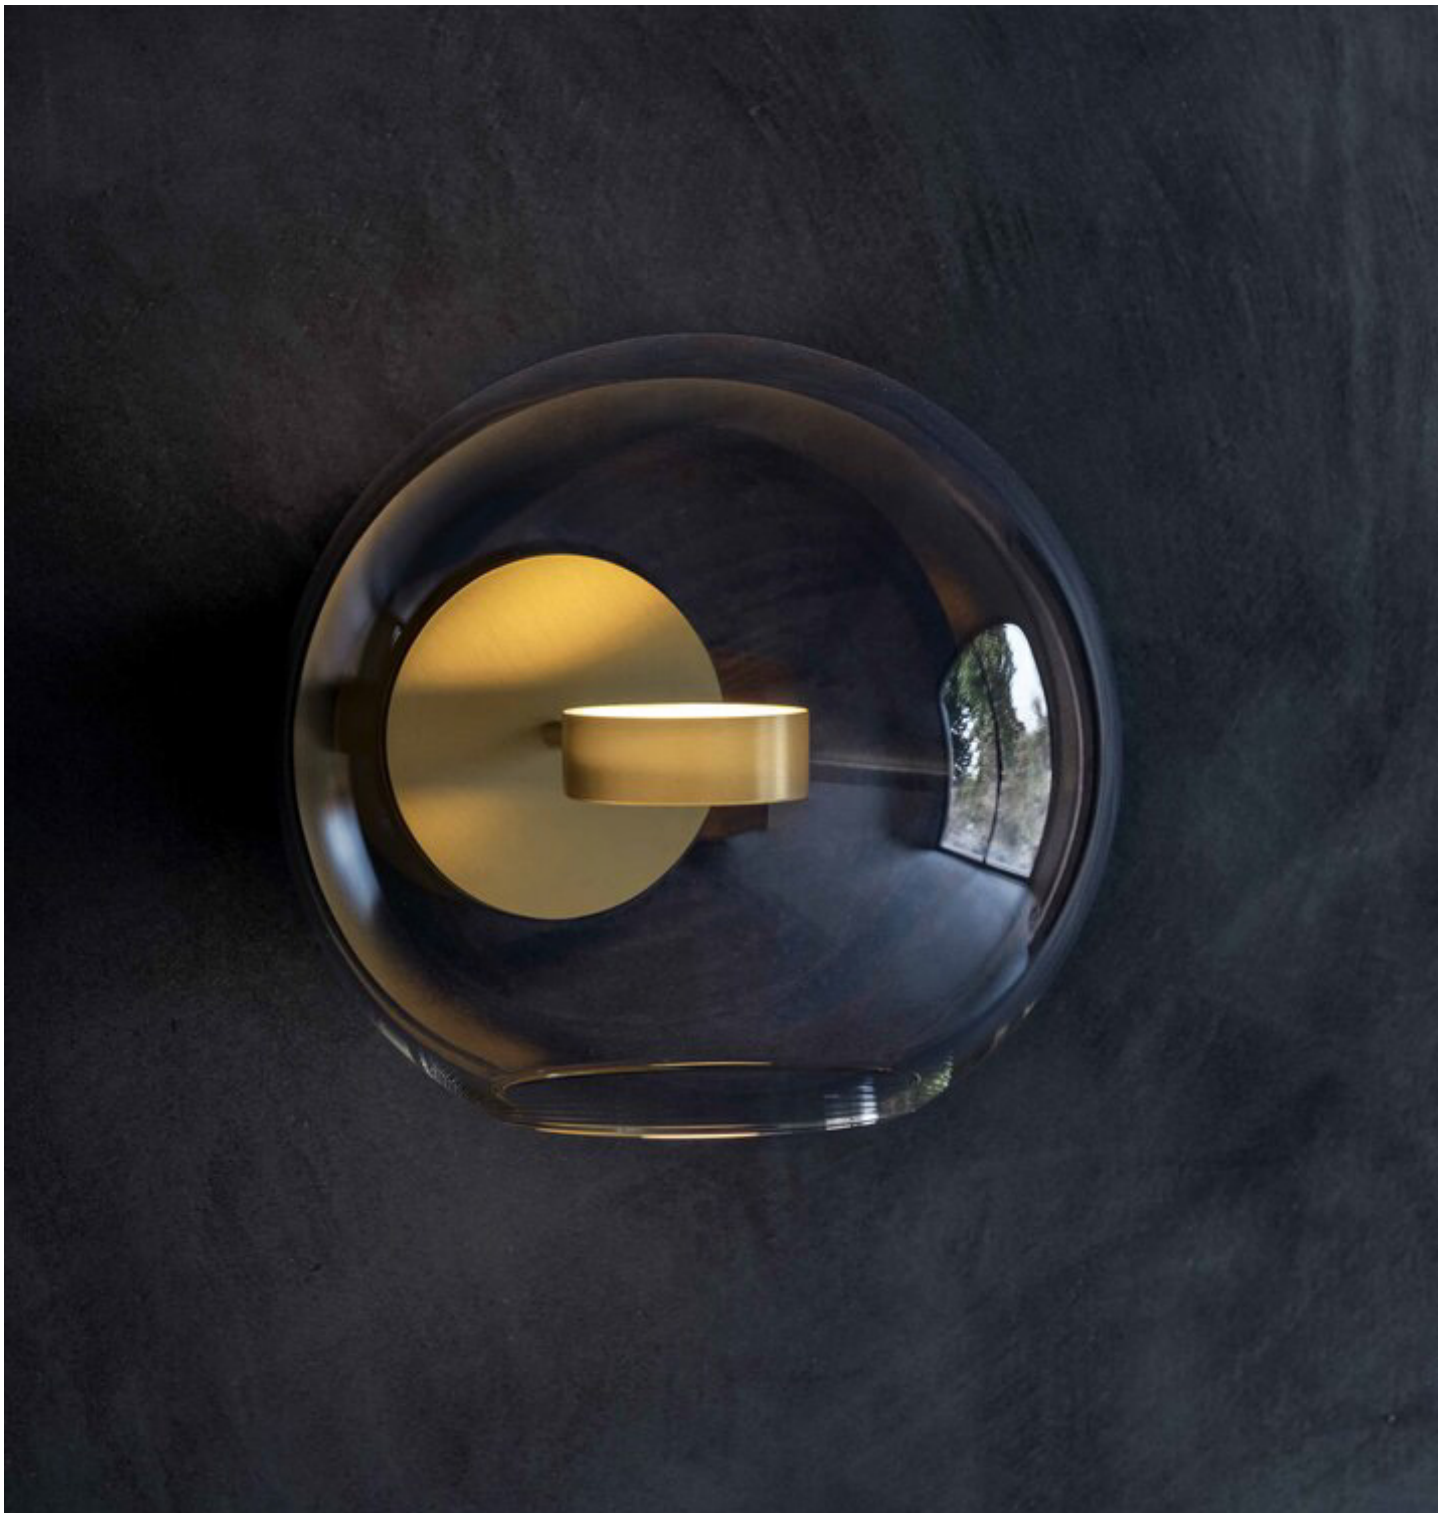

GIOPATO & COOMBES

Soffio collection evolves from the Bolle series, magnifying the sense of suspension of the transparent glass sphere on the brass structure.

The thin bubble appears to float in mid-air, and every Soffio creation enhances this perception. It's just one blow, but it has to be perfect.

An essential wall lamp, a functional and ornamental accent that combines noble and pure materials. The light is warm and enchanting, creating a refined atmosphere in the space.

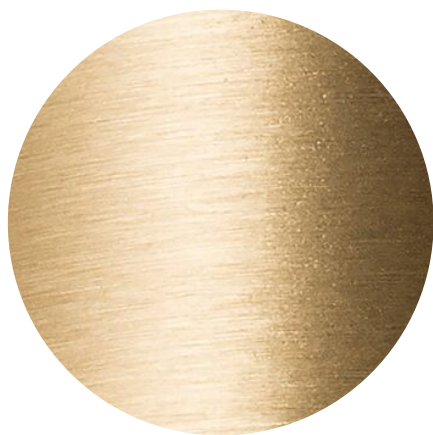

A single sphere of transparent glass, enhanced with maximum lightness and at the same time resistance thanks to the borosilicate glass material. Supported by brass with a proprietary Softspot light source. Different metal finishes are available.
