

Lolly Side Table

Fact Sheet

Lolly Side Table

Design by Pauline Deltour

The Lolly Side Table is the perfect grab-and-go piece of furniture. Although diminutive in stature, the Lolly is big in versatility and character. Place it next to sofas as a prop for your cup of tea or book, beside beds and armchairs or as an impromptu laptop stand. Most of all make use of its mobile nature; Lolly can be wherever you need it to be. The table's leg is hollow, meaning you can hide messy lamp or charging cables within it and its foot is designed to slide beneath your sofa or chair so that Lolly hugs the side of your furniture, saving space and integrating effortlessly. Lolly is made from sheet steel covered in a unique ripple-effect textured finish for added interest and extra durability.
