ABOUT THE COLLECTION

When Massproductions Designer-in-Chief, Chris Martin designed the Dandy in 2015, he asked himself “How do we want to sit?” and “How do we want to move in a room?”. The answer to the questions was the Dandy collection.

“With Dandy we wanted to encourage playfulness in how we furnish rooms, homes and public spaces. Magnus found a sofa from the 30s at an auction that had a nice rounded shape. We see rectangular sofas everywhere, so we were inspired by this almost forgotten form” says Chris Martin.

The name Dandy refers to the concept that emerged in the 18th century, where a dandy is a middle-class man who, with a certain extravagance in his clothes and appearance, wants to convey a sense of fine taste and elegance. The Dandy Collection expresses certain values associated with the dandy – elegance, panache, beauty and a relaxed attitude.

Dandy’s design encourages interactions as its curvaceous form has its guests face each other and when placed in an open space it creates new movement patterns in the room.

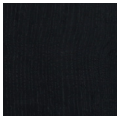

CARE & MAINTENANCE

Maintain your upholstery by vacuuming it regularly with a soft upholstery attachment. Try to avoid placing fabric in direct sunlight, and use curtains and blinds to protect your furniture when possible. Try to avoid spot cleaning, but if necessary try blotting the spot with a paper towel or clean white cloth. Avoid rubbing as this will create a larger stain. If further care is required, please check the specific cleaning requirements of your fabric to ensure that the appropriate method is used, this will ensure no further damage and the best possible removal of any stain.
