

May Lounge Chair

The May family evolves into relaxed seating with the addition of the May Lounge Chair - a reinterpretation of the May Armchair where comfort and aesthetics merge in a calm, understated expression. Its softly reclined backrest and lowered seat encourage a restful posture that invites you to slow down and savour a quiet moment under the open sky. The robust steel, finished with a matte powder coating, blends naturally into its surroundings throughout the year, while the timeless design invites lasting use.

Product highlights

- Part of a family ensemble consisting of different Chairs and Tables as well a Bench.
- Features an outdoor powder coating.
- Suitable for use in both public and private settings.
- The May Lounge Chair is stackable.
- Each package includes two May Lounge Chairs.
- Made from steel for a heavy, qualitative feel.

Product Type Lounge Chair, Outdoor Furniture

Designer Hannes & Fritz, 2026

About the Designer Hannes & Fritz is the design studio of Johannes Breuer & Fritz Gräber. With Johannes in Stuttgart and Fritz in Zurich, they develop each project through a mix of individual and mutual work across cities. Both have a very similar skillset and common interests, but they each bring their own unique perspective to their collaborative projects; Johannes' tendency to be rather linear and emblematic, and Fritz's more dynamic and expressive design language. Merged together, the results are more interesting than what each designer could have achieved individually.

Environment Outdoor

Country of Origin Latvia

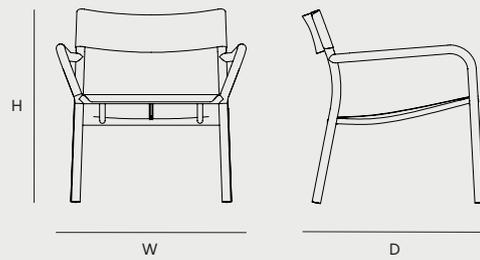

Assembly Requirements Preassembled

Material The May Lounge Chair is made of steel and features a primer and top coat suitable for outdoor use. Its frame is made from bent steel tubes that are welded and polished, while the seat and back are cold-formed.

Cleaning & Care Clean the table using a soft, dry or slightly damp cloth. If needed, apply a mild detergent and promptly wipe away the residue with a clean cloth. Any leftover detergent can damage the powder coat. Avoid using abrasive cleaning tools or strong cleaning agents as they may cause damage to the surface of the product. With regular use, minor rust spots may naturally appear. Scratches or damage to the powder-coated surface can make the exposed areas more prone to corrosion. Chipped or peeling paint from impact may further increase this risk. Furthermore, placing the furniture near the sea can accelerate the corrosion process.

Dimensions

Height: 719 mm / 28.3"
Width: 590 mm / 23.2"
Depth: 628 mm / 24.7"
Seat Height: 335 mm / 13.2"
Seat Width: 556 mm / 21.9"
Seat Depth: 554 mm / 21.8"

**Packaging Dimensions**

Height: 779 mm / 30.7"
Width: 692 mm / 27.2"
Depth: 712 mm / 28.0"

Weight

One Chair
13 kg / 28.7 lbs

Weight incl Packaging

30 kg / 66.1 lbs

Versions

Item No: 43241
Variant: Light Grey

Item No: 43240
Variant: Dark Green
