NONN

Foundry table series
Designed in 2022
by Cameron Foggo

The Foundry series of tables exemplifies refined simplicity with its sleek, contemporary forms, making an understated yet modern statement. Lightweight and sturdy, the minimalist design features an elegant silhouette.
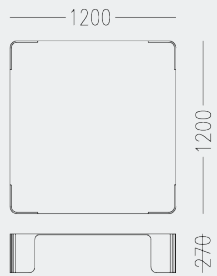

It offers a cool, industrial edge that provides a striking contrast to warmer interiors. The Foundry designs are suitable for indoor and outdoor use.
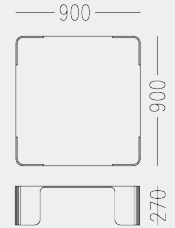

Burnishing, faint scratches, and controlled wear give the finish it's depth and character. The natural aging process will enhance the subtle irregularities, revealing the table's evolving beauty over time.
