A MINIMALIST SHELF IN INTERLOCKING ALUMINUM

Introducing a fusion of function and refined simplicity, the Alu Shelf is a study in material efficiency and sculptural elegance. Composed of two separate aluminum plates that interlock seamlessly, the design eliminates the need for additional reinforcements, relying instead on the precision of its construction to ensure a secure and balanced structure.

By bending the material with precision, the Alu Shelf achieves both its function and a striking aesthetic. The result is a closed, architectural form that subtly frames its contents, emphasizing objects rather than the shelf itself. Available in three sizes—80 cm, 60 cm, and 25 cm—it seamlessly adapts to different spaces and needs, from a kitchen or living room shelf to a compact bedside table.

Finished with a smooth brushed surface and a protective lacquer, the aluminum construction is not only durable but also offers a raw, industrial character that contrasts beautifully with softer interior elements.

CONNECTING PEOPLE AND SPACES

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design.

By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design.

Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
