REFINED GEOMETRIC LINES AND EASY COMFORT UNITE IN AN UNCONVENTIONAL LOUNGE CHAIR DESIGN

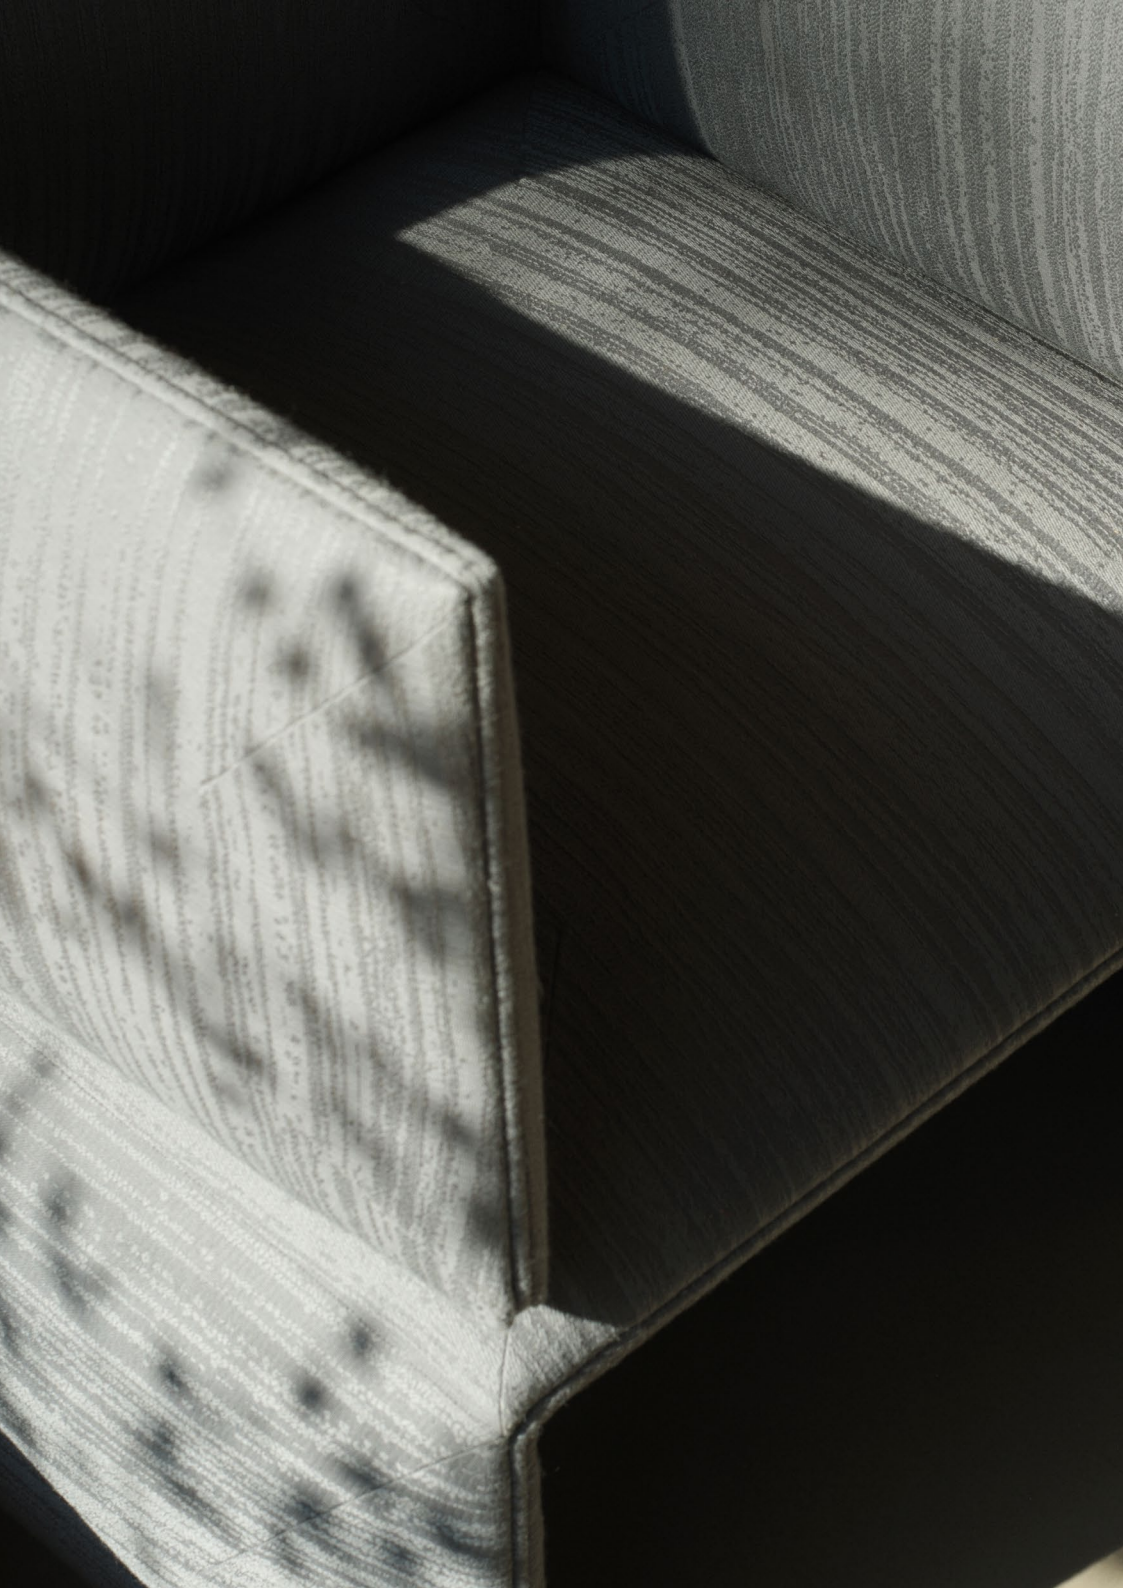

Designed with the goal of making something complex appear very simple, Fold merges a strong, bold character with a minimalist geometric expression. The idea for Fold Lounge Chair arose when a simple piece of paper was cut and folded to resemble a chair, resulting in a unique, unprecedented design. Designer Ole Petter Wullum elaborates: "My initial sketch was a simple piece of paper easily folded into a chair. The most sympathetic and unique thing about this sketch was that you immediately understood the shape and why it had become that way. So simple yet still full of character".
